

MAKE BLOGGER WORK FOR YOU: SETTING UP YOUR BLOGGER BLOG

There are a ton of blogging platforms out there. Nobody knows what platform is best for you. With a few easy steps, you can set your Blogger blog up so that you are in control, no matter where your blogging path leads you.

~Buy your own domain name from a service
That way it will be easy for you to access

~Run your feed through feedburner

~Do backups. There are 2 kinds.

-Export Blog-backs up your content

-Backup/Restore-is your template/design

quick
tips

~Hide the Blogger Navbar

~Utilize your pages

About, Contact, Disclosure (don't overload the sidebar)

~If you don't have access to design, keep it simple

Think about investing in a custom header
